Next 30 Days of Season 33

Get ready for the next 30 days for the season of The Newcomer, as we kick off a wave of fresh updates! Let's dive into what's new and embark on this thrilling adventure together!

Behind the Scenes with Paula Escuadra

We recently held our second Xbox Ambassadors: Behind the Scenes event on January 3rd, featuring a special guest, Paula Escuadra, Director of UX Strategy at Xbox Game Studios Publishing. Paula provided invaluable insights into her work within the Xbox Games Studios Publishing organization, highlighting the significant impact of Xbox Ambassadors on the game development process prior to release.

Paula's team plays a pivotal role as key partners in the Xbox Ambassadors Research Panel, facilitating confidential research conversations between Ambassadors and the Xbox team. These discussions cover upcoming Xbox games, products, features, and services, offering an exclusive opportunity for Ambassadors like you to directly influence the future of gaming. If you're eager to be part of this exciting Research Panel, join here.

Watch Party – Xbox Developer Direct

We've been having an absolute blast with all the recent exciting activities! One standout event was our inaugural Watch Party hosted in the Xbox Ambassadors Discord server. Ambassadors came together to enjoy exclusive

viewings of the latest game releases featured in the Xbox Developer_Direct, including highly anticipated titles such as Indiana Jones and the Great Circle, Avowed, Senua's Saga: Hellblade II, and many more!

It was truly fantastic sharing this Watch Party experience with our fellow Ambassadors. If you missed out, be sure to join our Discord server and keep a close watch on the Announcements channel for upcoming events.

Minecraft Play Date

The party keeps going! Ambassadors were able to attend the latest play date featuring one of our favorite games: Minecraft.

The Play Date was set up for Ambassadors to showcase their creativity and building skills!
Wanna take a sneak peek at some of the builds?

And for those who missed the Minecraft Play date, don't worry! We're excited to announce we're opening a realm for the Xbox Ambassadors world. This is a great opportunity for those who couldn't participate and for those who want to continue their creations from the Play Date.

How to join? Easy, just click the link https://realms.gg/ldxITh7svzU or in console, get to the Friends tab, and then choose "Join Realm" (Remember that the Realm link code is case-sensitive). Once you've done that, you'll be set to join! Be sure to contact Community Champions Bulletkenny, Spoodly Phoenix, THE EDGE1970, or myself (ChaoticLu) so we can grant you the correct permissions to start building.

Coming next: Black History Month 2024

To celebrate Black History Month, we reached out to the Black community of Xbox Ambassadors to ask them about the importance of feeling seen and heard within the gaming industry, and are highlighting their responses in two blogs, one that will be posted on February 1st and one of February 14th

We are also highlighting games created by and starring Black community. Don’t miss these featured quests & voices!

Read about the Xbox Ambassadors Black community in our first post today and stay tuned for the second post as we continue celebrating this month!
